SOMPEX®
design for life

HOSPITALITY BOOK

Lighting in the world's finest locations.

WE BELIEVE...

People rarely remember the chair.
People rarely remember the table.
But everyone remembers how a place made them feel.

For more than 75 years, Sompex has stood for experience.
A passion for design and the ambition to keep moving forward.
Today, we are one of the **leading manufacturers of rechargeable lamps** and a strong partner for the hospitality industry.

We shape the future of mobile light by combining our experience with contemporary design and intelligent functionality.
The result is inspiring lighting solutions that delight people around the world, at home, and above all, in hospitality.

Hospitality is a world we understand.
Beautiful design alone is not enough. In hospitality, light has to perform, every evening, at every table, throughout every service.
That is why our solutions combine design, functionality and reliability with what matters most: creating an atmosphere guests remember.

Leading names in international hospitality trust Sompex because our lighting is designed not only to look beautiful, but to work beautifully.

Because hospitality begins long before the first course is served.

It begins with light.

01 FINE DINING RESTAURANTS

YOUR CHALLENGES

“Different finishes and textures create different effects and atmospheres. Our wide range has the right choice for every purpose.”

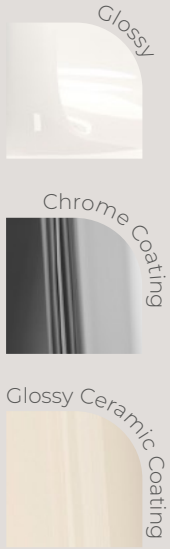

MATT FINISHES

Matte textures create a timeless, understated elegance with a premium tactile feel. Their visual calm and authentic finish convey quality and precision.

GLOSSY FINISHES

Glossy finishes create an eye-catching, dynamic look, using light to convey brilliance, freshness and a premium aesthetic.

CONTACT CHARGING BASE

Easy Charging: No tangled cables, no worn-out ports. Simply place the lamp on the dock to recharge: no plugging required. The direct pin connection charges quickly and gently.

USB-C CHARGING

USB-C charging: Fast and future-proof: The reversible connector plugs in effortlessly every time, while rapid charging gets your lamp back to full power in no time. All with one universal cable for your devices.

MAGNETIC CABLE

Magnetic charging: Fast, safe, and effortless, the cable snaps into place, preventing wear on the port and protecting your lamp.
